The Commons Windows are going into their frames and the two large window frames arrive this week.

Mechanical Penthouse and Roof
The first metal panel went on the Penthouse today! These panels will be installed around the new building.
Chemistry Building Renovation & Addition
Construction of new addition – The Commons

Update: The walls are full of insulation. The outside is fully waterproofed and now drywall can begin to be installed.

The Commons Classroom 105
Update: 6,000+ sq. ft.
state-of-the-art, collaborative classroom. With 6 tiered levels and 6 projector screens.
Chemistry Building Renovation & Addition

Original Chemistry Building Renovations

Center Stair:
The Metal support for the stair is in. It's fenced off for safety until it is ready for use.

North Side Level 1.5
The elevator shaft and new wall are complete. The level 2 Hallway and level 1.5 Landing will be coming soon.
Level 1: The last two rooms in the renovation portion will be getting framed out this week.

Level 3: Hallways are coming along: the original plaster wall on the left will eventually be covered up with new drywall.
