Original Chemistry Building & New Addition - The Commons

After almost two years of construction and several years of planning and design, we are proud to share some of the highlights of this wonderful project, including the seven, state-of-the-art classrooms; new study spaces; improved areas for faculty, staff and researchers; universally accessible entrances; and sensitive historic preservation.

History Preserved

Chemistry Renovation Commons Addition

Sundt's trucks have changed a little in 87 years,
but our love for building and improving the
University of Arizona campus remains the same!

THANK YOU **1936 - 2023**

Construction of the original Chemistry building in 1936
marked Sundt's 5th project at the University of Arizona.

The current renovation of the original building and
construction of the new Commons addition marks
our 65th University of Arizona project.

SUNDT
