Questions and Clarifications

1. Regarding the potential additional scope, please clarify whether “up to 100,000 gross square feet” means up to 100,000 sf in addition to the 60,000 sf for the applied research building, or if we should read it as being 60,000 sf for applied research plus up to 40,000 additional to equal up to 100,000 sf?
   a. Potential additional scope could to be up to 100,000 gross square feet in addition to the 60,000 gross square feet for the applied research building.

2. When is the feasibility study for the potential additional scope projected to be complete?
   a. There is currently a feasibility study for the site; however, the University would like to keep our options open for how the site will be developed.

3. When will a decision regarding the potential additional scope be determined and communicated?
   a. This has yet to be determined.

4. Has a funding mechanism for the potential additional scope been identified? If so, what is the funding mechanism?
   a. No funding mechanism nor potential additional scope has been determined.
