

## **DIVISION 12 - FURNISHINGS**

### **Section 12510 - Blinds**

#### **Introduction**

Window blinds may be a part of the construction contract (preferable if there is no furniture contract) or a part of the FF&E budget. Check with the University Project Coordinator to see what method is appropriate.

Details should provide for proper attachment with backing as required for the attachment. If blinds will sit in front of windows, insure that they will clear furnishings. If blinds sit within window recess, make certain depth of recess is adequate for proper installation.

Vertical or horizontal blinds may be at the discretion of the Design Consultant. (Users occasionally have preferences.) Overall building appearance should be considered and if a standard has been established, that standard should be maintained so exterior appearance is consistent. Generally, vertical blinds do not retain dust and horizontal blinds do. Mini-blinds are preferred if horizontal and in either case, metal is preferred.

Specifically indicate on the plans the locations of the blinds.

#### **Part 1 - General**

- There are no unique University requirements.

#### **Part 2 - Products**

- There are no unique University requirements.

#### **Part 3 - Execution**

- There are no unique University requirements.

#### **End of Section 12510**
